

Renew Funding for San Rafael Schools

Vote YES on Measures G & H Renew Funding for San Rafael Schools

Voting Yes on G & H will continue critical funding for all San Rafael students — from the youngest just starting school to those graduating and preparing for college and careers.

Since 1989, San Rafael schools have relied on local funding approved by voters that supports high quality academic instruction and makes local schools less reliant on unstable and unpredictable state school funding. These funds ensure our students receive a top-quality education with a strong foundation in math, science, reading and writing.

Without Measures G & H, San Rafael schools will lose nearly \$10 million each year and deep cuts will be required.

All funds from Measures G & H go directly to our local schools. No funds can be taken away by the State and no funds can be used for administrator salaries.

Vote Yes on G & H to Protect Quality Education for San Rafael Students

- Enhance math, science, technology, music and art instruction
- Attract and retain high-quality teachers
- Protect core academic programs like math, science and reading
- Maintain small class sizes
- Prepare students for success in high school, college and 21st-century careers

Measures G & H Require Strict Fiscal Accountability Protections

- By law, all funds must stay in our schools and cannot be taken by Sacramento
- No funds can be used for administrator salaries
- An independent oversight committee ensures all funds are spent as promised
- Seniors will continue to be eligible for an exemption

Whether or not you have school-age children, protecting quality schools is a wise investment that also protects property values.

Join San Rafael’s parents, teachers, seniors, business leaders and elected leaders in voting YES on G & H to protect our excellent San Rafael schools and support our students.
